STUDENT COUNSELLING CELL

Student X Case Report

2022-2023

Student X is a unique case that came to our attention in the first year [2020-2021] and has required extensive support and counseling throughout her academic journey.

II. Background information

Student X is a student enrolled at our institution. She faced several challenges that warranted our immediate attention:

1. Lack of Parental Support: Student X is without parents or proper caretakers, which has left her in a vulnerable situation.

2. **Mental Health Issues:** Student X was identified as having mental health issues, and this condition was brought to our notice by her concerned friends. Her condition was more pronounced in her second year of study.
3. **Irregular Attendance:** Due to her mental health challenges, Student X was unable to attend classes regularly, which was negatively impacting her academic progress.

III. Intervention

To address these challenges, the management of our institution took the following steps:

1. **Free Hostel Services:** Recognizing her lack of proper accommodation, the management provided Student X with free hostel services to ensure she had a stable living environment.
2. **Medical Counseling:** A qualified doctor was engaged to provide counseling and treatment for her mental health issues. The doctor generously sponsored her medicines to facilitate her recovery.
3. **Medication Compliance:** Despite these measures, it became apparent that Student X was not diligently

following the prescribed medication routine, which led to deterioration in her condition. This was a matter of serious concern.

4. Friends' Involvement: In response to this, student X's friends stepped up and took responsibility for tracking her medication, ensuring she adhered to the prescribed treatment plan. This community support was invaluable in her recovery.

As student X reaches her final year of study, there is positive progress to report. She is currently preparing for her exams and demonstrating a marked improvement in her mental health and academic performance. However, it is essential to remain vigilant regarding her ongoing treatment.

V. Future Plans

The treating doctor has suggested that, post-graduation, Student X be rehabilitated in a free orphanage, where she can receive continued care and support. This recommendation aligns with our commitment to ensuring her well-being beyond her academic journey.

VI. Conclusion

Since completing her degree at our college, she has secured employment as a physical education teacher at Shree Vivekananda higher primary school Hassan, facilitated by a recommendation from the principal along with free hostel accommodation.
