Awareness against use of Plastics

The students of A.V.K College visited various slum areas in Hassan and created awareness against use of plastic by distributing the cotton bags. The students enriched the usage of cotton bags to the slum people and why they have to use the cotton bags, like to buy groceries, vegetables etc. and also told them the causes of using plastic. Plastic is non-bio degradable so it ~~may~~ cause environmental pollution and if the animals eat this plastic they may suffer from respiratory problems ~~and~~ even they may die. People who got the bags were very happy with the awareness given by the students and they blessed them.
