Result Analysis Report: 2018-19 to 2020-21 Batches

Introduction:

Result Analysis help to understand how students are learning and how they have performed in each area of the programme. Result analysis report can be used to identify areas of strength and weakness of a student. It also reveals the quality of teaching and the areas of to be focused. After the announcement of end semester results, the Staff members of the department collects the data from the Examination section and analysis is done using Microsoft Excel. Reports are prepared by the Head of the Department for review and corrective actions and the same report is being sent to IQAC.

Objective:
- To identify the subjects in which students are showing weak performance
- To take corrective measure for each paper
- To identify Slow Learners and to conduct remedial classes for them
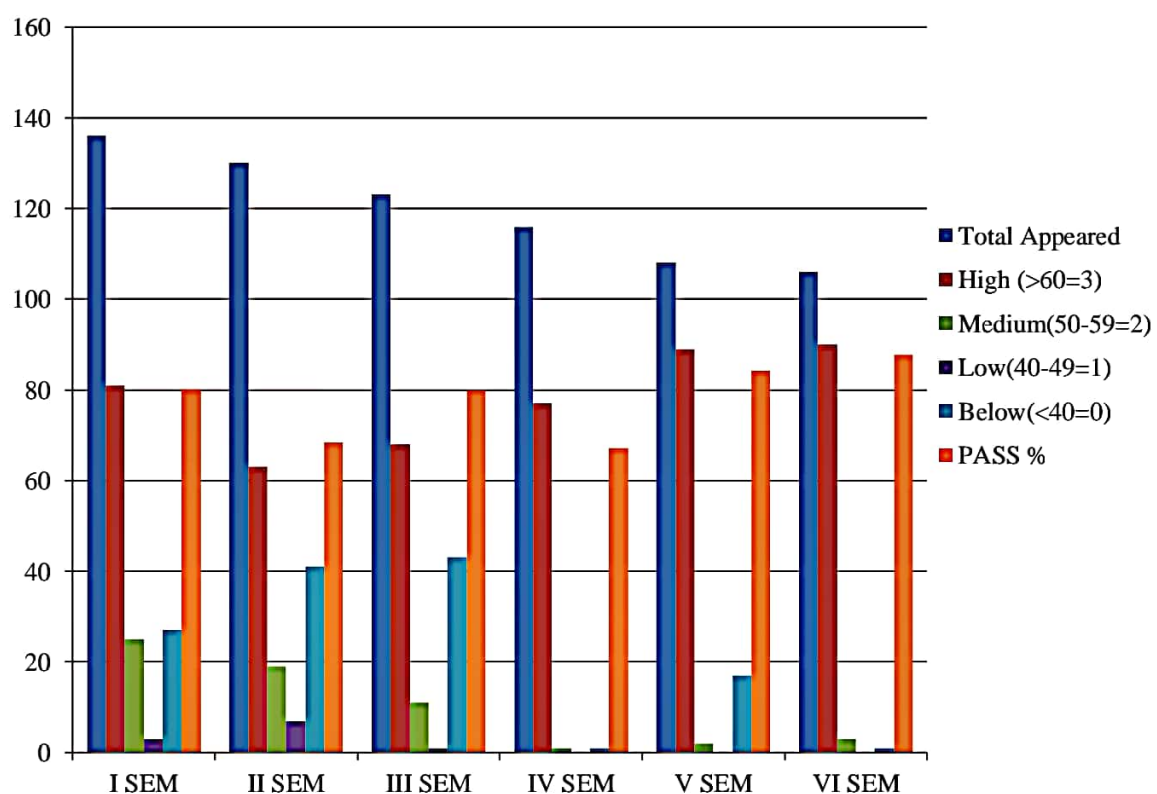

.

Methodology: Calculations were done in Microsoft Excel Sheets.

RESULT ANALYSIS 2018-19, 2019-20, 2020-21

	I SEM	II SEM	III SEM	IV SEM	V SEM	VI SEM
Total Appeared	136	130	123	116	108	106
High (>60=3)	81	63	68	77	89	90
Medium(50-59=2)	25	19	11	1	2	3
Low(40-49=1)	3	7	1	0	0	0
Below(<40=0)	27	41	43	1	17	1
PASS %	80.15	68.46	79.81	67.24	84.26	87.74

B.COM RESULT ANALYSIS 2018-19, 2019-20, 2020-21 BATCH

Outcome:

- The analysis shows that, there was an improvement in results during I, V and VI semesters
- Considerable Improvement in the number of students belonging to High Category from II Semester
- A positive Decline in number of fails Students.
- Identified slow learners based on the basis of result.
- It is observed that, there was a continuous drop out in students' strength in this batch for the reasons beyond our limit, this is mostly due to marriage and a few students opting for jobs before completing their course and majority of the students were from rural areas and from low income group families.

Action:

- The results were discussed in the department meeting which resulted in corrective measures.
- Results were discussed with parents during the Parent-Teacher Meeting
- Conducted remedial classes to the students whose results were showing downward trend
- College offered Merit Prizes to the students who scored highest marks during even semesters

Result Analysis Report: 2019-20 to 2021-22 Batches

Introduction:

Result Analysis help to understand how students are learning and how they have performed in each area of the programme. Result analysis report can be used to identify areas of strength and weakness of a student. It also reveals the quality of teaching and the areas of to be focused. After the announcement of end semester results, the Staff members of the department collects the data from the Examination section and analysis is done using Microsoft Excel. Reports are prepared by the Head of the Department for review and corrective actions and the same report is being sent to IQAC.

Objective:

- To identify the subjects in which students are showing weak performance
- To take corrective measure for each paper
- To identify Slow Learners and to conduct remedial classes for them

.

Methodology: Calculations were done in Microsoft Excel Sheets.

RESULT ANALYSIS: 2019-20, 2020-21, 2021-22

	I SEM	II SEM	III SEM	IV SEM	V SEM	VI SEM
Total Appeared	111	107	96	92	90	87
High (>60=3)	45	63	31	54	59	69
Medium(50-59=2)	23	2	23	7	3	4
Low(40-49=1)	7		9			1
Below(<40=0)	36		33		26	13
PASS %	67.57	60.75	67.74	66.3	68.89	85.06

B.Com Result Analysis : 2019-20, 2020-21, 2021-22
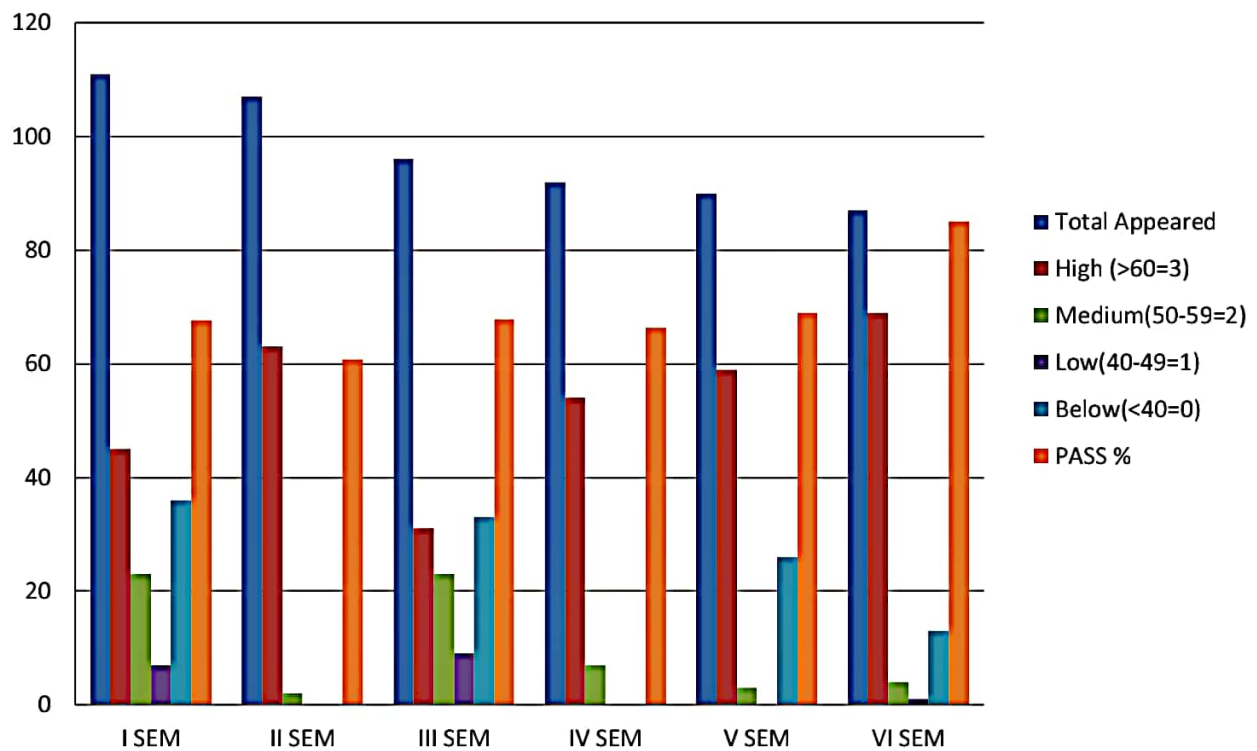

Outcome:

- The analysis shows that, there is a decline in pass percentage in II, IV and V Semester due to the pandemic situation no exam was conducted by the university. Hence, the university has declared the results based on the IA marks scored by the students.
- Considerable Improvement in the results of students belonging to High Category
- Increase in number of fails (Below Category) during 2020-21 as we were taking online classes due to pandemic situation and majority of our students were unable to attend the online classes due to poor network in their villages
- Identified slow learners based on the basis of result.
- It is observed that, there was a continuous drop out in students' strength in this batch for the reasons beyond our limit, this is mostly due to marriage and a few students opting for jobs before completing their course and majority of the students were from rural areas and from low income group families.

Action:

- The results were discussed in the department meeting which resulted in corrective measures.
- Results were discussed with parents during the Parent-Teacher Meeting
- Conducted remedial classes to the students whose results were showing downward trend
- College offered Merit Prizes to the students who scored highest marks during even semesters

Course outcome analysis
DEPARTMENT OF PHYSICS

RESULT ANALYSIS 2021-22

Course outcome attained from course exit survey for the academic year 2019- 2022 in the subject Physics is as shown in the graphs. An attempt has been made to summarize the performance of the students, who have entered the course in the year 2019-20

It is found that the students secured 'A' grade or distinction marks in IA (20 marks), but some students secured medium, low and below marks in the University exams (for 80 marks). Generally students have no anxiety of getting passing marks in IA tests. This is because tests are given for limited portions like one or two chapters. Improvement tests are also given for the slow learners. Due to these reasons almost all the students secured 'A' grade in class tests. While facing the University exams, since they have to read the entire syllabus, exam anxiety arises due to fear of not getting satisfactory marks. This emotional state probably contributes to lesser grade secured in the final. This could be due to lack of self desire to study and not willing to work hard need to succeed, lack of attention and self confidence.

Percentage of rural students inour department has been a matter of great concern. But the faculty managed to get the best out of them by using different teaching methodologies and many of the students have secured distinctions.

Because of the sincere efforts of both the teachers and students, the results have been improved from 2019 onwards. We observed that 2019 batch students have got 98% in I sem and 100% in II sem and 100% in further semesters also. The overall performance during the year 2021-2022 has been outstanding. Most of the students have been able to score higher marks and persue higher studies.

As many as 14 students of the current year got placed in different software companies and have started their Mtech in WIPRO as well

Actions taken to resolve any weakness to improve the performance of the slow learners in the examination are:

1. We have identified the difficulties with students in learning the difficult portions and taken special classes in order to clear their doubts, chapter wise tests are also conducted regularly to resolve the problem as much as possible.
2. In the tutorial classes we re-explained course content by adopting simpler teaching methods. Additional study materials are given to students at their request. Individual attention is given to slow learners.
3. We provide opportunities to take Re-test or improvement test if they score less marks due to unavoidable circumstances sometimes.

4. We appreciate and felicitate those advanced learners and students who score highest in subjects. Merit prizes are distributed at the time of College Day.

Note:

- Results are displayed on the notice board.
- Mechanism to deal with examination related grievances is transparent, time-bound and efficient.
- The institution adheres to the academic calendar for the conduct of Continuous Internal Evaluation (CIE).
- Mechanism of Internal assessment is transparent.

We identify weakness to improve Student learning by

- Providing feedback to correct misconceptions.
- Modifying course content.
- Changing our approach for teaching a concept or skill.
- Bringing to the notice of parents at Parents-Teachers meeting.
