DEPARTMENT OF ENGLISH

Course outcome attained from course exit survey for the academic year 2014-15, 2015-16 in the subject of English as II language and 2014-2015, 2015-16, and 2016-17 in the subject of English as optional subject.

An attempt has been made to summarize students' performance of the batch who entered semester in the year 2014-16. The pass percentage of BSc students I sem is 99%, II sem is 100%, III sem is 95% and IV sem is 99%. The pass percentage of B.Com students in I sem is 99% and II sem is 100%, III sem is 100% and IV sem is 100%. The pass percentage of BA students in I sem is 52%, II sem is 63%, III sem is 48% and IV sem is 89%. The pass percentage of BA optional English students in I sem is 86%, II sem is 63%, III sem is 56%, IV sem is 64%, V sem is 100% and VI sem is 100%.

The overall analysis of the above results shows the students belonging to B.Sc and B.Com disciplines have fared very well in English subject whereas BA students performance is not that good and the same picture persists in almost all the batches and all the academic years. 99% of the students opting for B.A courses are rural students and their knowledge of English is very poor. The faculty of the department through feedback have tried to find out the reasons for the bad performance and have made sincere efforts to correct the lapses. Unit tests were conducted continuously for them, coaching classes were conducted and a lot of efforts was made to teach them English Grammar in a very simple way. The efforts gave good results and the results improved from 52% in I sem to 89% in IV sem. The performance of the optional English students was low in the beginning I and II semesters but their results reached a surprising and satisfactory level of 100% in V and VI sem. Students who have no idea of literature opt for optional English and so they face with initial hiccups. The teachers try to develop literary sensibility among them, encourage them to read more number of literary books and develop the skills of critical approach. By the time they come to ending semesters, they improved and got a hold on the subject and so performed well in the exams.

OVERALL ANALYSIS OF THE DEPARTMENT RESULTS

At the backdrop of globalization, English has become the lingua franca and so learning English has become very essential for the students. In this direction the department is striving hard to improve the proficiency of English language of the students'. Through students of B.Sc and B.Com perform well in the exams and secure good results in English, when it comes to speaking English and writing on general topics in English, they fail utterly. And so the teachers of the department are to teach them English grammar in a simple way and to make them speak and write simple correct English. Special classes are conducted and stress is more on Grammar. The objective of the department is to achieve communicative competence in the language in students, enable them to speak fluently in English and also to inculcate in them the values of nobility and humanity.
